Kitchen cleanup, dishwashing (especially in large or industrial kitchens)

Logistical expertise and experience (planning or coordinating events, keeping track of details, delegating, keeping track of money, etc.)

Do you think you would do a good job of supervising a bus or van ride and helping people to get on their planes, trains, etc.? How about getting them organized on the first day of camp, in order to get on buses or vans? Any relevant experience or personal qualities? Have you traveled frequently yourself? Would you do a good job of communicating with worried or confused parents?

Do you have a valid drivers' license? _____ When were you first licensed to drive? _____

If you don't have a license now, will you by the start of NBTSC this year? _____ (We will count on you if you say yes. In fact, if you say "yes" and we hire you but then you don't end up getting your license, we may need to give your job to someone else.)

Have you been in any accidents, when you were driving? If so, please explain thoroughly and give the date(s).

Have you received any traffic tickets in the past 3 years? If so, please briefly describe each one and give approximate dates.

First aid _____ Adv. first aid _____ CPR _____ wilderness first responder _____

Lifeguard _____ (if lifeguard, certified by whom?) _____

If you answered no to any/all of the above, are you willing to get certified in any before NBTSC? Which? _____

Have you thoroughly read this year's Junior Staff information posted on our website? Do you anticipate having any difficulties with anything described there?

What will make you a strong peer advisor and role model to campers who are your own age and near your own age (as well as much younger)? What difficulties and challenges do you foresee in stepping into this role at NBTSC? How will you engage your responsibility to communicate openly and honestly with NBTSC senior staff regarding anything problematic (like agreement breaking) that you might become aware of? (We are very interested in your response to this question, so do use additional paper if necessary.)

Briefly describe and skill/experience with babysitting/childcare (not usually a key part of junior staffing, but sometimes needed):

Briefly describe any experience with outdoor skills/outdoor leadership (not usually part of the junior staff realm, but we're interested):

What other skills, experiences, or qualities do you have that would make you a helpful junior staffer?

Why do you want to work at NBTSC?

Any other reason we should hire you?

Name 2 people we can contact for references. Include their phone numbers and email addresses if possible, and briefly explain your relationship to them.

We often (but not always) assign each junior staffer to a specific role—either assistant cook, assistant to the dish queen, logistical assistant, or floater (combines all roles). Which would you prefer, and why? Would any of these positions be unacceptable to you?

Anything else you want us to know?
